MARYVALE PROGRAM CONTRACT COMPLIANCE MONITORING REVIEW

In accordance with your Board's April 14, 2009 motion, we are informing your Board of the results of a group home compliance review.

Maryvale is located in the 1st Supervisorial District and provides services to Los Angeles County Department of Children and Family Services' (DCFS) foster youth and Probation Department youth. According to Maryvale's program statement, its stated goal is "to create a healthy, therapeutic milieu in which each individual child is able to grow physically, emotionally, educationally and spiritually." Maryvale is licensed to serve a capacity of 60 children, ages 6 through 17.

The Out-of-Home Care Management Division (OHCMD) conducted a review of Maryvale in September 2010, at which time the agency had one 60-bed site and 42 placed DCFS children. All 42 children were females. For the purpose of this review, 14 currently placed children were interviewed and their case files were reviewed. One additional child's case file was reviewed for a total of 15 case files reviewed, however, this child was not interviewed because she ran away from Maryvale before she could be interviewed. For the sampled children, their overall average length of placement was ten months and their average age was 14. Five staff files were reviewed for compliance with Title 22 regulations and contract requirements.

Thirty-one children were on psychotropic medication. We reviewed their case files to assess timeliness of psychotropic medication authorizations and to confirm that medication logs documented correct dosages were being administered as prescribed.

SCOPE OF REVIEW

The purpose of this review was to assess Maryvale's compliance with the contract and State regulations. The visit included a review of Maryvale's program statement, administrative internal policies and procedures, 15 children's case files and a random sampling of personnel files. A visit was made to the facility to assess the quality of care and supervision provided to the children, and we conducted interviews with children to assess the care and services they were receiving.

A copy of this report has been sent to the Auditor-Controller (A-C) and Community Care Licensing (CCL).

SUMMARY

Generally, Maryvale was providing very good quality care to DCFS placed children and the services were provided as outlined in the agency's program statement. The children interviewed stated that they receive educational support, opportunities to plan recreational activities, and that they felt safe living at Maryvale.

At the time of the review, the Group Home needed to ensure that the children received timely initial dental examinations and that the children were satisfied with their meals. Additionally, the Group Home needed to maintain timely initial health screenings for their staff members.

The Vice President of Programs was accessible, cooperative and motivated to make the necessary corrections regarding the deficiencies highlighted during the review.

NOTABLE FINDINGS

The following are the notable findings of our review:

- Two of the 14 children interviewed stated that the food served at Maryvale did not taste good.
- Four of the 15 children's case files indicated that their initial dental examinations were not timely.
- Two of the five staff files reviewed indicated that the initial health screenings were not timely.

The detailed report of our findings is attached.

EXIT CONFERENCE

The following are highlights from the exit conference held November 12, 2010.

In attendance:

Dr. Vince Castro, Vice President of Programs, Maryvale; Michael Giron, Vice President of Administrative Services, Maryvale; and Scott Song, Monitor, DCFS OHCMD.

Highlights:

The Vice President of Programs was in agreement with our findings.

As agreed, Maryvale provided a timely written Corrective Action Plan (CAP) addressing each recommendation noted in this compliance report. The approved CAP is attached.

As noted in the monitoring protocol, a follow up visit will be conducted to address the provider's approved CAP and assess for full implementation of recommendations.

If you have any questions, please call me or your staff may contact Aldo Marin, Board Relations Manager, at (213) 351-5530.

MARYVALE CONTRACT COMPLIANCE MONITORING REVIEW

SITE LOCATION

**7600 E. Graves Avenue

License Number: 191500468
Rate Classification Level: 12**

The following report is based on a "point in time" monitoring visit and addresses findings noted during the September 2010 monitoring review.

CONTRACTUAL COMPLIANCE

Based on our review of 15 children's files and five staff files, Maryvale was in full compliance with six of nine sections of our Contract Compliance review: Licensure/Contract Requirements; Facility and Environment; Program Services; Education and Emancipation Services; Recreation and Activities; and Clothing and Allowance.

CHILDREN'S HEALTH-RELATED SERVICES, INCLUDING PSYCHOTROPIC MEDICATION

Based on our review of 15 children's case files and interviews with 14 children, Maryvale fully complied with eight of nine elements in the area of Children's Health Related Services, including Psychotropic Medication.

The Group Home maintained a current court-approved authorization and psychiatric evaluation/review for each child on psychotropic medication. The Group Home also conducted timely initial and follow-up medical examinations for the 15 children reviewed. Follow-up dental examinations were also timely.

However, four of the 15 children's case files reviewed indicated that their initial dental examinations were not timely.

Recommendation:

Maryvale management shall ensure that:

1. Initial dental examinations for all children are completed within 30 days of placement.

PERSONAL RIGHTS

Based on our review of 15 children's case files and interviews with 14 children, Maryvale fully complied with ten of 11 elements in the area of Personal Rights.

The 14 children reported that Maryvale informed them of the Group Home policies and procedures, they feel safe in the Group Home and staff treated them with respect and dignity. An appropriate rewards and discipline system was in place and the children

were free to receive or reject voluntary medical, dental and psychiatric care. The children were allowed private visits, to make and receive telephone calls and to send and receive unopened correspondence/mail. The children were also free to attend religious services and activities of their choice. In addition, the children were given reasonable chores. During our review, two children stated that the food served at Maryvale did not taste good.

Recommendations:

Maryvale management shall ensure that:

2. The children report satisfaction with their meals and snacks.

PERSONNEL RECORDS

Based on our review of five staff personnel files, Maryvale fully complied with 11 of 12 elements in the area of Personnel Records.

All five staff reviewed met the educational/experience requirements, and submitted timely criminal fingerprint cards, Child Abuse Central Index (CACI) Clearances and signed criminal background statements in a timely manner. They also had valid driver's licenses and received the required initial training, CPR and First Aid training, on-going training and emergency intervention training. Additionally, the five staff had signed copies of the Group Home policies and procedures.

However, two staff members did not receive their initial health screenings (TB tests) in a timely manner.

Recommendations:

Maryvale management shall ensure that:

3. All staff members receive timely initial health screenings, including TB tests.

PRIOR YEAR FOLLOW-UP FROM THE AUDITOR CONTROLLER'S REPORT

Objective

Determine the status of the recommendations reported in the A-C's prior monitoring review.

Verification

We verified that there were no A-C monitoring review reports posted for the years 2009 and 2010.

Sincerely,

Michael F. Giron

Vice President of Administrative Services

SECTION I:

	SUBJECT: Medical Examination	NUMBER:
	AUTHORIZED:	EFFECTIVE DATE: 12/01/2010
		REVISED DATE:
	PRESIDENT/Executive Director:	PAGE NO. 1 OF 2

Policy

Upon offer of employment each Associate must complete a physical examination. This includes an examination by a doctor, a drug test, and a tuberculosis test and/or chest x-ray.

For prevention purposes and to continue quality programs and services, Maryvale will administer a tuberculosis test to Associates every two (2) years. Please note that those Associates who are required to test with a chest x-ray will be asked to go to their personal physician and provide a doctor's note that they are symptom free.

Purpose

To ensure the health and well being of new Maryvale Associates and to protect the children and families we serve, medical examinations are required for all final selection candidates. These examinations also must be completed in order to comply with General Licensing Requirements listed in Title 22 regulations, section 80065 Personnel Requirements:

All personnel, including the licensee, administrator and volunteers, shall be in good health, and shall be physically, mentally, and occupationally capable of performing assigned tasks. Good physical health shall be verified by a health screening, including a test for tuberculosis, performed by or under the supervision of a physician not more than one year prior to or seven days after employment or licensure. (CALIFORNIA-DSS-MANUAL-CCL)

Bi-annual tuberculosis testing is completed to confirm Associates have not contracted tuberculosis.

Procedure

New Hire Associates

1. Upon receiving an employment offer candidates will be sent to receive a physical examination at Maryvale's chosen medical provider.
2. The medical provider will send pre-employment result information to Maryvale's Human Resource department.

3. Candidates who meet the requirements of the physical examination will be cleared to start employment at Maryvale. No candidate will be able to begin employment at Maryvale without a tuberculosis test clearance.

Bi-annual Tuberculosis Testing

1. A member of the Human Resource staff will notify supervisors when an Associate they supervise is due to have their bi-annual tuberculosis test.
2. On the Rosemead campus, supervisors will send Associates due to have a tuberculosis test to the Maryvale Health Services Office to receive their test. Those Associates who are required to test with a chest x-ray will be asked to go to their personal physician and provide a doctor's note that they are symptom free.
3. On the Duarte campus, supervisors will send Associates due to have a tuberculosis test to Maryvale's chosen medical provider to receive the test. Those Associates who are required to test with a chest x-ray will be asked to go to their personal physician and provide a doctor's note that they are symptom free.
4. Human Resources will obtain test results from the medical provider; test results will be maintained in Human Resources.

This policy will be administered by the Vice President of Human Resources.
